

“The work of health reform is the Lord's means for lessening suffering in our world and for purifying His church. Teach the people that they can act as God's helping hand, by co-operating with the Master-worker in restoring physical and spiritual health. This work bears the signature of Heaven, and will open doors for the entrance of other precious truths. There is room for all to labor who will take hold of this work intelligently.” -Ellen White

## Module 1 Health Education Training

MAY 22 - AUGUST 7, 2022

*“The same unswerving adherence to the word of God manifested at that crisis of the Reformation is the only hope of reform today.” - GC88 204.2*

**Come & Join us**

## Module One

We are pleased to announce a modular program that consists of four individual semesters of study that will be equivalent to a one year program of training. This form of education will take place each summer allowing for flexibility for attendance. In this format, if a student attended each summer for 4 years, they would complete the one year training. In addition, if the student is unable to attend a certain summer semester, they may be able to attend in the future when that course is offered again, in the cycle, and complete the training. This makes the training they have received still eligible for completion of the program and allows for people to complete the course at their pace. There will be other programs available as well, including hopefully in the future, a correspondence program.

“There are many ways of practicing the healing art, but there is only one way that Heaven approves. God's remedies are the simple agencies of nature that will not tax or debilitate the system through their powerful properties. Pure air and water, cleanliness, a proper diet, purity of life, and a firm trust in God are remedies for the want of which thousands are dying; yet these remedies are going out of date because their skillful use requires work that the people do not appreciate. Fresh air, exercise, pure water, and clean, sweet premises are within the reach of all with but little expense, but drugs are expensive, both in the outlay of means and in the effect produced upon the system.” {5T 443.1}

## Classes for Module One

- Overview of True Education
- Introduction / Overview of the 8 Laws of Health and their relation to disease
- Comparative Medical Philosophy
